# M Safdar

PHP Laravel Web Developer / Backend Developer

## Summary

Dedicated and highly motivated professional with a Bachelor's degree in Computer science. Possess a strong foundation in IT concepts, programming, and problem-solving. Proven ability to work effectively in teams, adapt to evolving technologies, and deliver results. Eager to contribute technical expertise to drive innovation and meet organizational goals.

## Projects

### Php Admin Panel | Jul 2025 - Present

Experienced PHP developer proficient in creating dynamic web applications. Successfully designed and implemented an admin panel with PHP and MySQLi, featuring a robust login and registration system. Demonstrated ability to manage categories, including adding, deleting, and updating entries in the database table

### Student Management System

Developed a full-featured Student Management System using Laravel, implementing complete CRUD functionality for student records. Integrated email notifications using Mailtrap to alert students upon registration or profile updates. Built relational data models using Eloquent ORM, including:

- **One-to-Many** relationship (Teacher ↔ Students) to track students by location.
- **Many-to-Many** relationship (Students ↔ Subjects) to assign multiple subjects per student.
- Used Laravel Joins and Eloquent relationships for efficient data retrieval and reporting.

Focused on clean architecture, validation, user feedback, and RESTful controller structure. Leveraged Laravel's mailing features for dynamic communication and notifications.
